71% OF THE WORLD IS WATER CHILDREN ARE 100% CURIOUS

Safety Around Water Week

Drowning can happen nearly anywhere with standing water. Safety Around Water is a 5 day intensive water safety program for our friends and neighbors in the community. This program is offered annually to first time participants who have little or no swimming ability. The SAW curriculum teaches children skills that will reduce the risk of drowning and give them confidence in and around water. Dryland exercises, water safety topics and homework is also provided to reinforce learning and make water safety a family initiative. Our goal is to make everyone feel safe and comfortable in and around the water!
