

71% OF THE WORLD IS WATER CHILDREN ARE 100% CURIOUS

SAFETY AROUND WATER WEEK

Drowning can happen nearly anywhere with standing water. Our goal is to make everyone feel safe and comfortable in and around the water!

Where? The YMCA Camp Zehnder - Lass Pool,
3911 Herbertsville Road, Wall, NJ 08724

What is Safety Around Water Week? An annual 5-day intensive water safety program for our friends and neighbors in the community.

Who is SAW week for? First time participants, ages 6 month and up, who have little or no swimming ability and current Y members who have not already participated in a YMCA swim program. This program is not available to current swim lesson participants.

What will we teach? The SAW curriculum teaches children skills that will reduce the risk of drowning and give them confidence in and around water.

How do we reduce the risk of drowning? Dryland exercises, water safety topics and homework is also provided to reinforce learning and make water safety a family initiative.
